

EVALUATION - students

Mention some things you learnt about another country, other than your own, during this week:

What did you learn about yourself this week?

How is it to communicate in a foreign language? (if you did 😊)

What was really great about this week?

What could have been improved during this week?

How did you make this week a good experience?

How will you keep your new friends?

About the programme:

What did you like?

What did you not like?

How was it to be a host family? Or, How was it living in a host family?

THANK YOU!
